

Mercury

Use the values in the tables below to configure the **Mercury** payment provider/authorizer with the described settings.

Authorizer

(The procedures for accessing and configuring these settings are described in [Add an Authorizer.](#))

Parameter	Value	Comments
AUTHORIZER NAME	Mercury	<i>Can be any meaningful value.</i>
AUTHORIZER CODE	Mercury	<i>This value should exactly match the provider/ authorizer Bean implementation. (Service Implementation Bean is a term used in Java Platform, Enterprise Edition, for a Java object implementing a Web service.) Do not change if you are not sure.</i>
SITE URL Test: Production:	https://w1.mercurycert.net/PaymentsAPI/ https://w1.mercurypay.com/PaymentsAPI/	<i>The field must be populated, but the value is not currently used. Any value is valid. Suggest using specified values for consistency/clarity.</i>
LOGIN URL Test: Production:	https://w1.mercurycert.net/PaymentsAPI/ https://w1.mercurypay.com/PaymentsAPI/	<i>URL/SOAP Endpoint for payment processing.</i>
CUSTOM URL 1		<i>Not used</i>
START DATE	10/20/08	<i>Effective date</i>
END DATE		<i>Ending date, as applicable. Can be empty.</i>
STATUS	Active	<i>Should be "Active" for the current provider. (Status of "New" is not recommended)</i>

Authorization Info

(The procedures for accessing and configuring these settings are described in [Add Authorization Info.](#))

Parameter	Value	Comments
AUTHORIZER NAME	Mercury	<i>Match the value in the Authorizer Name field in the Authorizer parameters.</i>
AUTHORIZATION INFO CODE	Mercury	<i>Any meaningful value</i>
USER NAME	<i>Unique for each merchant</i>	<i>Mercury MerchantId</i>
PASSWORD	*****	<i>Mercury Password</i>
EXTERNAL MERCHANT ID		<i>Not Used</i>
TERMINALID	<i>Unique for each merchant, value provided by Mercury</i>	<i>Assigned by Mercury TerminalId</i>
PAYMENT CHANNEL BIN		<i>Not Used</i>

PAYMENT TOKENIZATION ENABLED	No	<i>Tokenization is not supported. Must be "No"</i>
DOES AUTHORIZER SUPPORT MULTIPLE CAPTURE AGAINST SINGLE AUTHORIZATION?	No	<i>Does not support multiple captures against a single authorization. Must be "No"</i>
START DATE	11/17/15	<i>Effective date</i>
END DATE		<i>Ending date, as applicable. Can be empty.</i>
CURRENCIES	USD	<i>USD is the only supported currency.</i>
ITEM TYPES		<i>Select from a list of available catalog item types. (Optional)</i> <i>With this parameter, authorizers can be set up to process payments using one or more specific catalog item types. Multiple authorization info configurations can be set up for one or more authorizers using different codes, each associated with a unique item type or item types. Order items can then be processed through the authorizer/authorizer code that is based on the item's corresponding type.</i> <i>Item types are defined in EDGE System Admin>Catalog>Item Types.</i>
PAYMENT TYPES	Gift Card	<i>Gift Card processing is supported. Must be selected.</i>
DISABLE FRAUD DETECTION FOR ORDER SOURCES		<i>Not Used</i>
STATUS	Active	<i>Should be "Active" for the current provider. (Status of "New" is not recommended)</i>

Authorization Info Parameters

(The procedures for accessing and configuring these settings are described in [Configure Authorization Info Parameters](#).)

Parameter	Default Value	Comments
DoNotProcessTransaction	No	<p><i>Optional parameter.</i></p> <p><i>For payment transactions that are for reporting purposes only. When "Yes," third parties that manage their own payments can send full transaction details upon order import so that EDGE can track the payments in an Order Details page or Payment Transactions report without actually processing any payments.</i></p> <p><i>Valid values:</i></p> <ul style="list-style-type: none"> Yes - a payment transaction WILL NOT be processed No (default value) - a payment transaction WILL be processed <div style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;"> <p> Note:</p> <p><i>For the Mercury gift card payment processor only, when this is set to "Yes," then a the payment transaction type will be logged as "Authorization," when, in actuality, Mercury only supports "Sale" transactions.</i></p> </div>
