

Amazon Seller Central

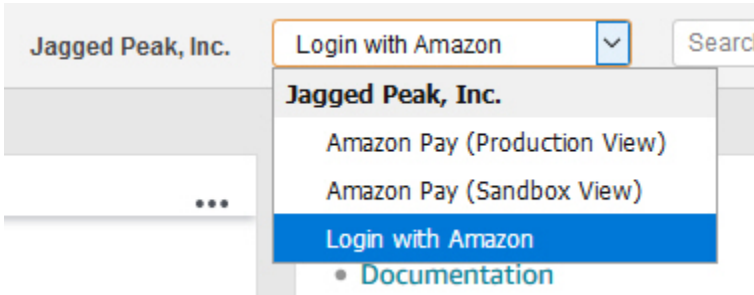

These sections describe actions and procedures you may need to perform in "Amazon Seller Central," the Web interface for use by merchants in managing their Amazon Pay accounts.

Obtain Access Keys

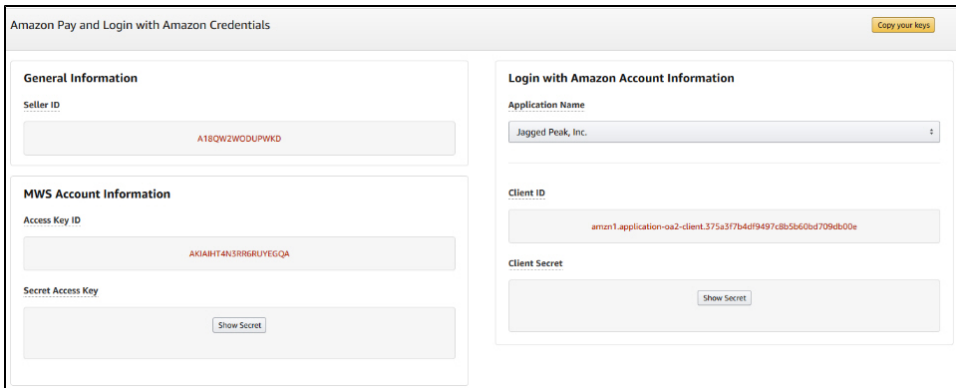

Use this procedure to obtain access information required for an Amazon Pay configuration.

1. Log into [Amazon Seller Central](#) using your credentials.

2. Select **Amazon Pay (Production View)** or **Amazon Pay (Sandbox View)**, as applicable, in the drop-down menu near the top of the page.
3. Scroll to the **Amazon Pay and Login with Amazon Credentials** section on the page that opens.

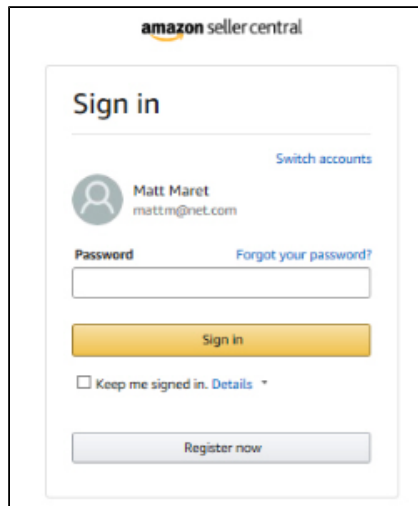

Use the information on this section to fill in the following fields:

- In **Amazon Pay Authorization Info:**
 - **External Merchant ID** (Use the Amazon "Seller ID" key)
- In **Amazon Pay Authorization Info Parameters:**
 - **AccessKeyID**

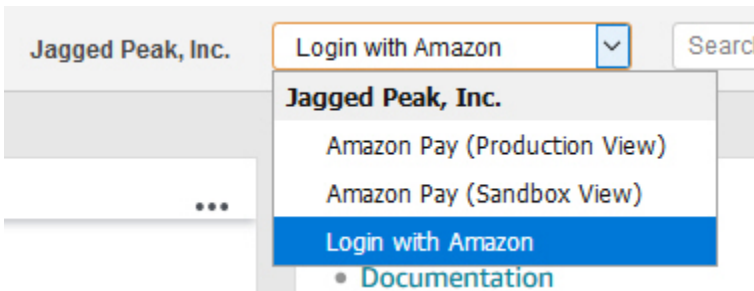

- **SecretAccessKey** (click [Show Secret](#) to display)
- **ClientID**

Create Test Account

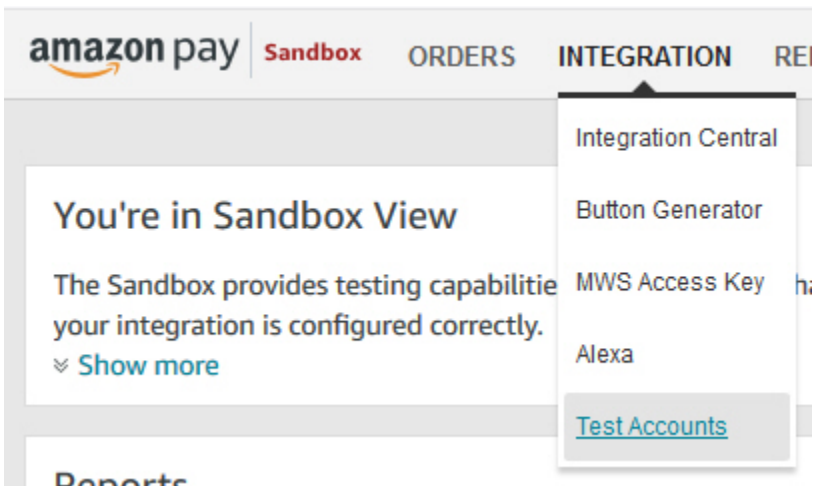

Use this procedure to set up an Amazon Pay test account.

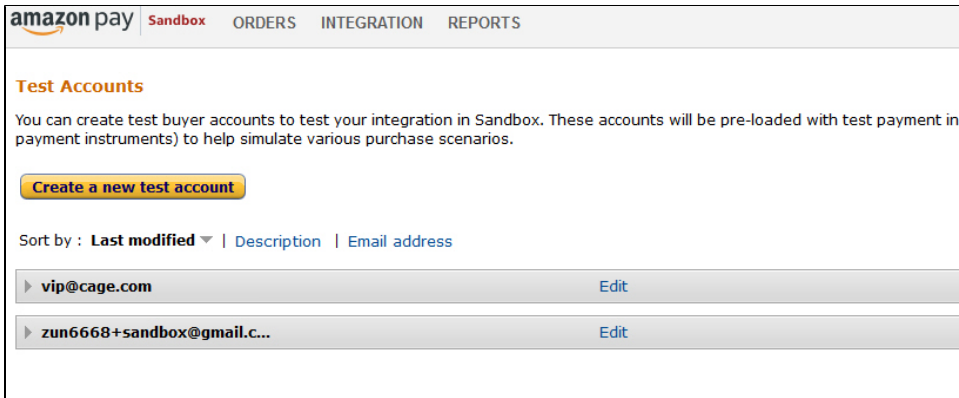

1. Log into [Amazon Seller Central](#) using your credentials.

2. Select **Amazon Pay (Sandbox View)** in the drop-down menu.

3. Hover your cursor over the **INTEGRATION** option and select **Test Accounts**. The **Test Accounts** page opens.

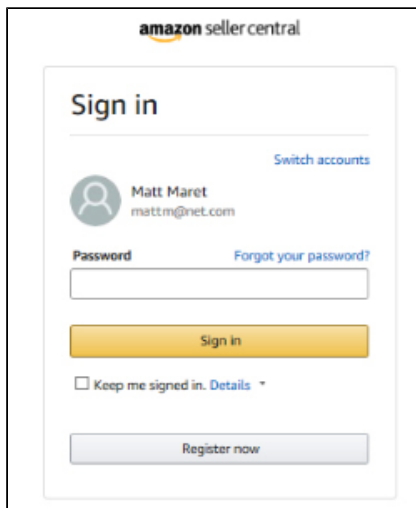

4. Click **Create a new test account**.
5. Fill in the form, as applicable, and submit.

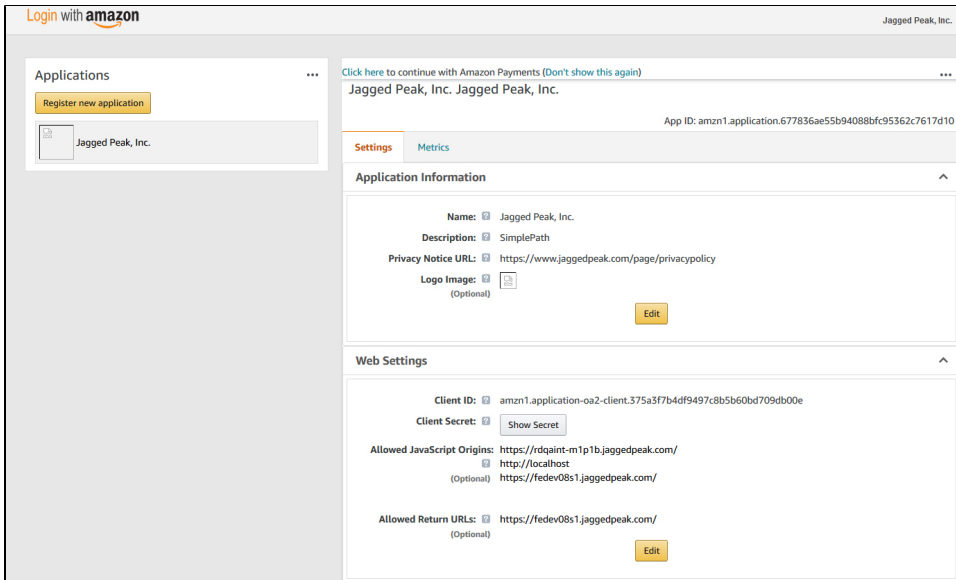

Add a New Environment

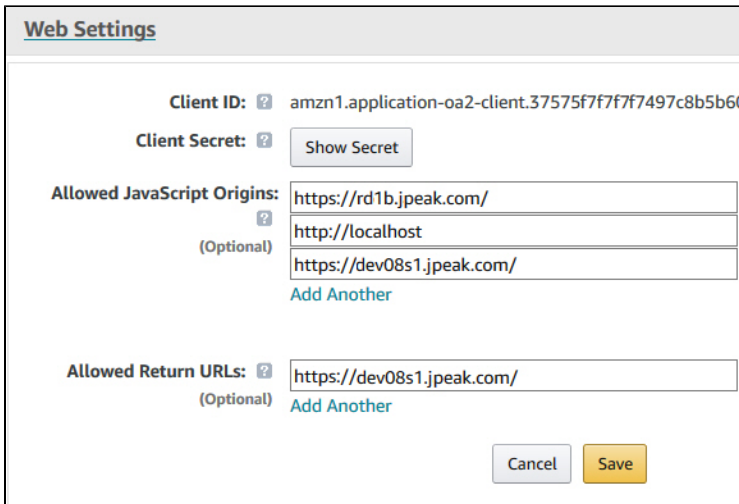

Use this procedure to set up a new environment.

1. Log into **Amazon Seller Central** using your credentials.

2. Click **Edit** at the bottom of the "Web Settings" section to open the **Web Settings** input fields.

3. Click the **Add Another** link under the "Allowed JavaScript Origins" input fields and provide the applicable information.
4. Click the **Add Another** link under the "Allowed Return URLs" input fields and provide the applicable information.

5. Click **Save** when you have finished providing all required information.
