

# EDGE 16.26.2 (Mauna Kea) Release Notes

This summary lists the patches and changes made to the EDGE platform in the EDGE 16.26.2 maintenance release.

Issue #	Issue Description
EDGE61-10960	The problem where processing issues with the Order Shipped OpenTools message resulted in missing tracking information for multiple shipments has been fixed.
EDGE61-10994	The problem that caused a rerun of the Order Shipped OpenTools message to fail to capture the payment and to generate the error message "variable [ISDBTO] doesn't exist" has been fixed.
