

OpenTools Message Enhancements | EDGE 16.27.0

The following OpenTools messages have been modified or added to improve the EDGE standard integration layer.

Enhancements	
1.	<p>In the Order Import message, two new nodes – “deliveryWindowStart” and “deliveryWindowEnd” – have been added under: /Message/body/orderImport/orderheader</p> <p>These optional nodes can be used to specify the start and end dates of a window for delivery of an order, as requested by the customer.</p> <div style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;"><p> FYI...</p><p><i>Refer to Support for Future Delivery Window and New Project Setting for Future Order Release for related information.</i></p></div>
2..	<p>In the Outgoing Invoice message, a new “ShippingHandlingTax ” node has been added under: /Message/Body/Invoice/OrderHeader/ShippingDetails</p> <p>This node can be used to specify the applicable tax on the shipping and handling charge.</p>

Business Benefit

Continually adding to and improving the OpenTools messages in the standard integration layer helps ensure that EDGE can be seamlessly and quickly integrated with other systems.
