

Last Logged-in Date Updated to Current with Single Sign-On

When single sign-on (SSO) is used, the last logged-in date is now updated to the current date upon login to EDGE and the provider applications, StorePoint and the Vendor Portal.

Enhancements	
1.	The last logged-in date is now updated to the current date upon login to EDGE, StorePoint and the Vendor Portal when SSO is used.

Business Benefit

Updating the last logged-in date with the current date ensures that accurate system access records are maintained.
