

Additional Order Shipment Detail Data | EDGE 16.38.0

Additional fields are now provided on the Order Shipment Detail page:

- **Handling Unit** – when supplied, displays the Handling Unit Code (Pallet ID) as a column under the "SHIPPED ITEM IDENTIFICATION" section
- **SCAC** – when supplied, displays the Standard Carrier Alpha Code (SCAC) as a column under the "TRACKING INFORMATION" section

Enhancements	
1.	A Handling Unit column is now provided in the Shipped Item Identification section of the Order Shipment Detail page.
2.	A SCAC column is now provided in the Tracking Information section of the Order Shipment Detail page.

Business Benefit

The addition of these new fields gives providers additional information and insight into the contents and origin of each shipment.
