

EDGE 16.29.1 (Mount Marcy) Release Notes

This summary lists the patches and changes made to the EDGE platform in the EDGE 16.29.1 maintenance release.

Issue #	Issue Description
EDGE61-12106	The issue that affected return order processing due to a payment status of "Saved" instead of "Completed" for non-processing payment types and externally captured payments has been resolved.
EDGE61-12015	The problem that caused Inventory Import messages received in OpenTools to produce the error message "Failure Processing Inventory Import - dynamicfieldvalue cannot be null or empty" has been fixed.
