

Added Ability to Delete Digital Asset File | 16.47

EDGE now allows the physical removal of a Digital Asset File.

Enhancements	
1.	New button is now available that will physically delete a "Digital Asset" file. See Digital Assets>Files and then edit an individual record.

 **Warning**
This action is not reversible.

Business Benefit

Enables merchants the ability to "clean up" old files no longer in use thereby managing their server footprint.
