

CancelExceptionOrder BF

The CancelExceptionOrder method is used to cancel Exceptions on a specific order in EDGE.

CancelExceptionOrder Request

The element below is used in a ApproveExceptionOrder request.

Note

- If there are multiple Exceptions on an order, all will be cancelled in one request.
- This service does not trigger the 'Order Cancelled' email notification at this time.
- OpenTools Integration Message 'Cancel Exception Order' will not be generated at this time.

JSON

Click [JSON](#) for an example of this request in JSON format.

Tip

For best results, hover the cursor over the image and click your right mouse button (or equivalent laptop button or mobile device control), then select **Open link in New Window** in the shortcut menu. (When prompted, select to either open the file or save the file, as preferred.)

URL: https://<service_domain>/service/order/CancelExceptionOrder/<ProjectID>/jp.jws

Element	Value/Description	Format
orderHeaderId	ID of the exception order being requested (Required)	Integer
